the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 1996).

There are a number of reasons why the world's population is becoming more undernourished. First, the world's population is growing rapidly. The world population is projected to reach 6 billion by the year 2000, and to reach 8 billion by the year 2025 (UNEP 1992).

Second, the world's population is becoming more urban. In 1990, 54% of the world's population lived in urban areas. By the year 2000, this figure is projected to rise to 60% (UNEP 1992).

Third, the world's population is becoming more dependent on food imports. In 1990, the world's population imported 10% of its food. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Fourth, the world's population is becoming more dependent on food aid. In 1990, the world's population received 10% of its food from aid. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Fifth, the world's population is becoming more dependent on food from developed countries. In 1990, the world's population received 10% of its food from developed countries. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Sixth, the world's population is becoming more dependent on food from the private sector. In 1990, the world's population received 10% of its food from the private sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Seventh, the world's population is becoming more dependent on food from the public sector. In 1990, the world's population received 10% of its food from the public sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Eighth, the world's population is becoming more dependent on food from the non-profit sector. In 1990, the world's population received 10% of its food from the non-profit sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Ninth, the world's population is becoming more dependent on food from the voluntary sector. In 1990, the world's population received 10% of its food from the voluntary sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Tenth, the world's population is becoming more dependent on food from the government sector. In 1990, the world's population received 10% of its food from the government sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Eleventh, the world's population is becoming more dependent on food from the international community. In 1990, the world's population received 10% of its food from the international community. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Twelfth, the world's population is becoming more dependent on food from the private sector. In 1990, the world's population received 10% of its food from the private sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Thirteenth, the world's population is becoming more dependent on food from the public sector. In 1990, the world's population received 10% of its food from the public sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Fourteenth, the world's population is becoming more dependent on food from the non-profit sector. In 1990, the world's population received 10% of its food from the non-profit sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Fifteenth, the world's population is becoming more dependent on food from the voluntary sector. In 1990, the world's population received 10% of its food from the voluntary sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

Sixteenth, the world's population is becoming more dependent on food from the government sector. In 1990, the world's population received 10% of its food from the government sector. By the year 2000, this figure is projected to rise to 20% (UNEP 1992).

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of young people, with 1.5 million young people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people with disabilities, with 1.5 million people with disabilities employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people from ethnic minorities, with 1.5 million people from ethnic minorities employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 50 years of age, with 1.5 million people over 50 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 60 years of age, with 1.5 million people over 60 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 65 years of age, with 1.5 million people over 65 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 70 years of age, with 1.5 million people over 70 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 75 years of age, with 1.5 million people over 75 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 80 years of age, with 1.5 million people over 80 years of age employed in the public sector in 1995, compared with 1 million in 1980.
