the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of young people, with 1.5 million young people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people with disabilities, with 1.5 million people with disabilities employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people from ethnic minorities, with 1.5 million people from ethnic minorities employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 50 years of age, with 1.5 million people over 50 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are under 25 years of age, with 1.5 million people under 25 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are single, with 1.5 million single people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are married, with 1.5 million married people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are divorced, with 1.5 million divorced people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are widowed, with 1.5 million widowed people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are cohabiting, with 1.5 million cohabiting people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are living alone, with 1.5 million people living alone employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are in a partnership, with 1.5 million people in a partnership employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are in a civil partnership, with 1.5 million people in a civil partnership employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are in a registered partnership, with 1.5 million people in a registered partnership employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are in a common-law partnership, with 1.5 million people in a common-law partnership employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are in a civil partnership, with 1.5 million people in a civil partnership employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are in a registered partnership, with 1.5 million people in a registered partnership employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are in a common-law partnership, with 1.5 million people in a common-law partnership employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are in a civil partnership, with 1.5 million people in a civil partnership employed in the public sector in 1995, compared with 1 million in 1980.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of young people, with 1.5 million young people employed in the public sector in 1995, compared with 1 million in 1980.
