the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office for National Statistics 2000). The number of people aged 65 and over is projected to increase to 6.5 million by 2020, and the number of people aged 75 and over to 4.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the health and social care needs of the ageing population. The Department of Health (2000) has identified the need to develop a 'new paradigm' of health and social care for the ageing population. This paradigm is based on the principles of 'active ageing', which is defined as 'the process of optimising the opportunities for health, participation and security in old age' (World Health Organization 1990).

The 'new paradigm' of health and social care for the ageing population is based on the principles of 'active ageing'. This paradigm is based on the principles of 'active ageing', which is defined as 'the process of optimising the opportunities for health, participation and security in old age' (World Health Organization 1990). The 'new paradigm' of health and social care for the ageing population is based on the principles of 'active ageing'.
