the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which it is funded.

The public sector is a complex and diverse entity, and it is difficult to define it precisely. However, it can be described as the part of the economy that is owned and controlled by the state. It includes a wide range of activities, from the provision of health care and education to the provision of social housing and public transport. The public sector is a major source of employment in the UK, and it is also a major source of revenue for the state.
