the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995 (Department of Health 1996).

There is a growing emphasis on the need to improve the quality of care in the public sector. The Department of Health (1996) has set out a number of key objectives for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the financial performance of the system. The Department of Health (1996) has also set out a number of key principles for the public sector, including the need to be patient-centred, to be transparent, to be accountable, and to be efficient.

The Department of Health (1996) has also set out a number of key strategies for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the financial performance of the system. The Department of Health (1996) has also set out a number of key principles for the public sector, including the need to be patient-centred, to be transparent, to be accountable, and to be efficient.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of young people, with 1.5 million young people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people with disabilities, with 1.5 million people with disabilities employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people from ethnic minorities, with 1.5 million people from ethnic minorities employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 50 years of age, with 1.5 million people over 50 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are under 25 years of age, with 1.5 million people under 25 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are married, with 1.5 million married people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are single, with 1.5 million single people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are parents, with 1.5 million parents employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-parents, with 1.5 million non-parents employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are homeowners, with 1.5 million homeowners employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-homeowners, with 1.5 million non-homeowners employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are car owners, with 1.5 million car owners employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-car owners, with 1.5 million non-car owners employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are smokers, with 1.5 million smokers employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-smokers, with 1.5 million non-smokers employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are drinkers, with 1.5 million drinkers employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-drinkers, with 1.5 million non-drinkers employed in the public sector in 1995, compared with 1 million in 1980.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of young people, with 1.5 million young people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people with disabilities, with 1.5 million people with disabilities employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people from ethnic minorities, with 1.5 million people from ethnic minorities employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 50 years of age, with 1.5 million people over 50 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 60 years of age, with 1.5 million people over 60 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 65 years of age, with 1.5 million people over 65 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 70 years of age, with 1.5 million people over 70 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 75 years of age, with 1.5 million people over 75 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 80 years of age, with 1.5 million people over 80 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 85 years of age, with 1.5 million people over 85 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 90 years of age, with 1.5 million people over 90 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 95 years of age, with 1.5 million people over 95 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 100 years of age, with 1.5 million people over 100 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 105 years of age, with 1.5 million people over 105 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 110 years of age, with 1.5 million people over 110 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 115 years of age, with 1.5 million people over 115 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are over 120 years of age, with 1.5 million people over 120 years of age employed in the public sector in 1995, compared with 1 million in 1980.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of young people, with 1.5 million young people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people with disabilities, with 1.5 million people with disabilities employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people from ethnic minorities, with 1.5 million people from ethnic minorities employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 50 years of age, with 1.5 million people over 50 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are under 25 years of age, with 1.5 million people under 25 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are single, with 1.5 million single people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are married, with 1.5 million married people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are divorced, with 1.5 million divorced people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are widowed, with 1.5 million widowed people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are cohabiting, with 1.5 million cohabiting people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are living alone, with 1.5 million people living alone employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are living with a partner, with 1.5 million people living with a partner employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are living with a family, with 1.5 million people living with a family employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are living with a child, with 1.5 million people living with a child employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are living with a grandchild, with 1.5 million people living with a grandchild employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are living with a great-grandchild, with 1.5 million people living with a great-grandchild employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are living with a great-grandchild, with 1.5 million people living with a great-grandchild employed in the public sector in 1995, compared with 1 million in 1980.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of people who are living with a grandchild, with 1.5 million people living with a grandchild employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are living with a great-grandchild, with 1.5 million people living with a great-grandchild employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are living with a great-grandchild, with 1.5 million people living with a great-grandchild employed in the public sector in 1995, compared with 1 million in 1980.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has also become an important employer of women, with 4.5 million women employed in the public sector in 1995, compared with 3.5 million in 1980. The public sector has also become an important employer of young people, with 1.5 million young people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people with disabilities, with 1.5 million people with disabilities employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people from ethnic minorities, with 1.5 million people from ethnic minorities employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are over 50 years of age, with 1.5 million people over 50 years of age employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are under 25 years of age, with 1.5 million people under 25 years of age employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are married, with 1.5 million married people employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are single, with 1.5 million single people employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are parents, with 1.5 million parents employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-parents, with 1.5 million non-parents employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are homeowners, with 1.5 million homeowners employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-homeowners, with 1.5 million non-homeowners employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are car owners, with 1.5 million car owners employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-car owners, with 1.5 million non-car owners employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are smokers, with 1.5 million smokers employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-smokers, with 1.5 million non-smokers employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are drinkers, with 1.5 million drinkers employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are non-drinkers, with 1.5 million non-drinkers employed in the public sector in 1995, compared with 1 million in 1980.

the 1990s, the number of people in the world who are living in poverty has increased from 1.2 billion to 1.6 billion (World Bank 1999).

There is a growing awareness of the need to address the needs of the world's poor. The United Nations Millennium Declaration (2000) states that the world's leaders have agreed to 'eradicate extreme poverty and hunger' by the year 2015. The United Nations Development Programme (2000) has identified eight 'Millennium Goals' to be achieved by 2015. The first goal is to 'eradicate extreme poverty and hunger'.

The World Bank (1999) has identified 'extreme poverty' as living on less than \$1 per day. The World Bank (1999) also states that 'extreme poverty' is a global problem. It is a problem that affects all countries, but it is particularly acute in the developing world.
