the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 1996).

There are a number of reasons for this increase. First, the world population has increased from 5 billion in 1987 to 6 billion in 1999, and is projected to reach 8 billion by 2025 (UNEP 1999). Second, the world population is becoming increasingly urbanized, and this has led to a greater demand for food.

Third, the world population is becoming increasingly aged, and this has led to a greater demand for food.

Fourth, the world population is becoming increasingly mobile, and this has led to a greater demand for food.

Fifth, the world population is becoming increasingly educated, and this has led to a greater demand for food.

Sixth, the world population is becoming increasingly wealthy, and this has led to a greater demand for food.

Seventh, the world population is becoming increasingly healthy, and this has led to a greater demand for food.

Eighth, the world population is becoming increasingly active, and this has led to a greater demand for food.

Ninth, the world population is becoming increasingly mobile, and this has led to a greater demand for food.

Tenth, the world population is becoming increasingly educated, and this has led to a greater demand for food.

Eleventh, the world population is becoming increasingly wealthy, and this has led to a greater demand for food.

Twelfth, the world population is becoming increasingly healthy, and this has led to a greater demand for food.

Thirteenth, the world population is becoming increasingly active, and this has led to a greater demand for food.

Fourteenth, the world population is becoming increasingly mobile, and this has led to a greater demand for food.

Fifteenth, the world population is becoming increasingly educated, and this has led to a greater demand for food.

Sixteenth, the world population is becoming increasingly wealthy, and this has led to a greater demand for food.

Seventeenth, the world population is becoming increasingly healthy, and this has led to a greater demand for food.

Eighteenth, the world population is becoming increasingly active, and this has led to a greater demand for food.

Nineteenth, the world population is becoming increasingly mobile, and this has led to a greater demand for food.

Twentieth, the world population is becoming increasingly educated, and this has led to a greater demand for food.

Twenty-first, the world population is becoming increasingly wealthy, and this has led to a greater demand for food.

Twenty-second, the world population is becoming increasingly healthy, and this has led to a greater demand for food.

Twenty-third, the world population is becoming increasingly active, and this has led to a greater demand for food.

Twenty-fourth, the world population is becoming increasingly mobile, and this has led to a greater demand for food.

Twenty-fifth, the world population is becoming increasingly educated, and this has led to a greater demand for food.
