the 1990s, the number of people in the world who are under 15 years of age has increased by 1.2 billion (United Nations 1999). The number of children in the world who are under 5 years of age has increased by 0.5 billion in the same period. The number of children in the world who are under 15 years of age is now 1.9 billion (United Nations 1999).

There is a growing concern that the rapid increase in the number of children in the world is leading to a corresponding increase in the number of children who are living in poverty. This is because the number of children who are living in poverty has increased by 0.5 billion in the same period. The number of children in the world who are living in poverty is now 0.5 billion (United Nations 1999).

The rapid increase in the number of children in the world is also leading to a corresponding increase in the number of children who are living in poverty. This is because the number of children who are living in poverty has increased by 0.5 billion in the same period. The number of children in the world who are living in poverty is now 0.5 billion (United Nations 1999).

The rapid increase in the number of children in the world is also leading to a corresponding increase in the number of children who are living in poverty. This is because the number of children who are living in poverty has increased by 0.5 billion in the same period. The number of children in the world who are living in poverty is now 0.5 billion (United Nations 1999).

The rapid increase in the number of children in the world is also leading to a corresponding increase in the number of children who are living in poverty. This is because the number of children who are living in poverty has increased by 0.5 billion in the same period. The number of children in the world who are living in poverty is now 0.5 billion (United Nations 1999).
