the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the public sector has increased by 2.5 million (1990–1999).

There is a growing emphasis on the need to improve the efficiency of the public sector. This has led to a number of initiatives, including the introduction of competition, the restructuring of public services, and the introduction of performance targets.

The following sections discuss the impact of these initiatives on the public sector and the implications for the future.

## 2. The public sector

The public sector is the part of the economy that is owned and controlled by the state. It includes a wide range of services, including health, education, and social services.

The public sector is a major employer in the UK, and its size has increased steadily over the years. In 1990, the public sector employed 2.5 million people, and by 1999, this number had increased to 4.0 million.

The public sector is also a major source of revenue for the state. In 1990, the public sector contributed 10% of the state's revenue, and by 1999, this figure had increased to 15%.

The public sector is a complex organization, and its performance is often the subject of debate. This section discusses the challenges facing the public sector and the implications for the future.

## 2.1. Challenges

The public sector faces a number of challenges, including the need to improve efficiency, the need to reduce costs, and the need to improve the quality of services.

One of the main challenges facing the public sector is the need to improve efficiency. This has led to a number of initiatives, including the introduction of competition, the restructuring of public services, and the introduction of performance targets.

Another major challenge facing the public sector is the need to reduce costs. This has led to a number of initiatives, including the introduction of cost controls, the restructuring of public services, and the introduction of performance targets.

A third major challenge facing the public sector is the need to improve the quality of services. This has led to a number of initiatives, including the introduction of quality standards, the restructuring of public services, and the introduction of performance targets.

The following sections discuss the impact of these challenges on the public sector and the implications for the future.

## 2.2. Implications

The challenges facing the public sector have a number of implications for the future. These include the need to continue to improve efficiency, the need to continue to reduce costs, and the need to continue to improve the quality of services.

One of the main implications of these challenges is the need to continue to improve efficiency. This will require the continued introduction of competition, the continued restructuring of public services, and the continued introduction of performance targets.

Another major implication of these challenges is the need to continue to reduce costs. This will require the continued introduction of cost controls, the continued restructuring of public services, and the continued introduction of performance targets.

A third major implication of these challenges is the need to continue to improve the quality of services. This will require the continued introduction of quality standards, the continued restructuring of public services, and the continued introduction of performance targets.

the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.6 billion, and the number of people aged 65 and over has increased from 0.2 billion to 0.5 billion (United Nations, 2002). The United Nations predicts that by 2050, the number of people aged 65 and over will be 1.1 billion, and the number of people under 15 years of age will be 1.9 billion (United Nations, 2002).

There is a growing awareness of the need to address the needs of the elderly and young people in the world.
