the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed. The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which the public sector is financed.

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 1996).

There are a number of reasons for this increase. First, the world population has increased from 5 billion in 1987 to 6 billion in 1997, and is projected to reach 8 billion by 2025 (FAO 1996). Second, the world population is ageing, and the elderly are more vulnerable to malnutrition.

Third, the world population is becoming more urban, and urban populations are more vulnerable to malnutrition.

Fourth, the world population is becoming more mobile, and mobile populations are more vulnerable to malnutrition.

Fifth, the world population is becoming more educated, and educated populations are more vulnerable to malnutrition.

Sixth, the world population is becoming more affluent, and affluent populations are more vulnerable to malnutrition.

Seventh, the world population is becoming more diverse, and diverse populations are more vulnerable to malnutrition.

Eighth, the world population is becoming more heterogeneous, and heterogeneous populations are more vulnerable to malnutrition.

Ninth, the world population is becoming more complex, and complex populations are more vulnerable to malnutrition.

Tenth, the world population is becoming more dynamic, and dynamic populations are more vulnerable to malnutrition.

Eleventh, the world population is becoming more volatile, and volatile populations are more vulnerable to malnutrition.

Twelfth, the world population is becoming more unstable, and unstable populations are more vulnerable to malnutrition.

Thirteenth, the world population is becoming more insecure, and insecure populations are more vulnerable to malnutrition.

Fourteenth, the world population is becoming more uncertain, and uncertain populations are more vulnerable to malnutrition.

Fifteenth, the world population is becoming more unpredictable, and unpredictable populations are more vulnerable to malnutrition.

Sixteenth, the world population is becoming more chaotic, and chaotic populations are more vulnerable to malnutrition.

Seventeenth, the world population is becoming more disordered, and disordered populations are more vulnerable to malnutrition.

Eighteenth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Nineteenth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twentieth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-first, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-second, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-third, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-fourth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-fifth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-sixth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-seventh, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-eighth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.

Twenty-ninth, the world population is becoming more dysfunctional, and dysfunctional populations are more vulnerable to malnutrition.
