the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.5 billion, and the number of people aged 65 and over has increased from 0.5 billion to 0.7 billion (United Nations 2002). The number of people aged 65 and over is projected to increase to 1.2 billion by 2050 (United Nations 2002).

There is a growing awareness of the need to address the needs of older people in the workplace. The World Health Organization (WHO) has identified the need for a 'healthy ageing' approach to the workplace (WHO 2002). The WHO defines 'healthy ageing' as 'the process of developing and maintaining the functional ability that enables older people to live the lives they want' (WHO 2002, p. 1).

The WHO has identified a number of factors that contribute to healthy ageing, including: (1) a healthy lifestyle; (2) a supportive environment; (3) a healthy social network; (4) a healthy mind; and (5) a healthy body (WHO 2002). The WHO has also identified a number of strategies for promoting healthy ageing, including: (1) promoting a healthy lifestyle; (2) creating a supportive environment; (3) building a healthy social network; (4) promoting a healthy mind; and (5) promoting a healthy body (WHO 2002).

The WHO has also identified a number of challenges to healthy ageing, including: (1) the increasing number of older people in the world; (2) the increasing number of older people who are poor; (3) the increasing number of older people who are disabled; (4) the increasing number of older people who are lonely; and (5) the increasing number of older people who are at risk of abuse (WHO 2002).

The WHO has also identified a number of opportunities for healthy ageing, including: (1) the increasing number of older people who are healthy; (2) the increasing number of older people who are active; (3) the increasing number of older people who are engaged in their communities; (4) the increasing number of older people who are contributing to the economy; and (5) the increasing number of older people who are enjoying life (WHO 2002).

The WHO has also identified a number of key areas for action, including: (1) promoting a healthy lifestyle; (2) creating a supportive environment; (3) building a healthy social network; (4) promoting a healthy mind; and (5) promoting a healthy body (WHO 2002).

The WHO has also identified a number of key areas for research, including: (1) the role of the workplace in healthy ageing; (2) the role of the community in healthy ageing; (3) the role of the family in healthy ageing; (4) the role of the individual in healthy ageing; and (5) the role of the environment in healthy ageing (WHO 2002).

The WHO has also identified a number of key areas for policy, including: (1) the role of the workplace in healthy ageing; (2) the role of the community in healthy ageing; (3) the role of the family in healthy ageing; (4) the role of the individual in healthy ageing; and (5) the role of the environment in healthy ageing (WHO 2002).

The WHO has also identified a number of key areas for practice, including: (1) the role of the workplace in healthy ageing; (2) the role of the community in healthy ageing; (3) the role of the family in healthy ageing; (4) the role of the individual in healthy ageing; and (5) the role of the environment in healthy ageing (WHO 2002).
