The public sector has also become an important employer of people who are in a common-law partnership, with 1.5 million people in a common-law partnership employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are in a registered partnership, with 1.5 million people in a registered partnership employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are in a civil union, with 1.5 million people in a civil union employed in the public sector in 1995, compared with 1 million in 1980.

The public sector has also become an important employer of people who are in a civil partnership, with 1.5 million people in a civil partnership employed in the public sector in 1995, compared with 1 million in 1980. The public sector has also become an important employer of people who are in a common-law partnership, with 1.5 million people in a common-law partnership employed in the public sector in 1995, compared with 1 million in 1980.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1999). The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which it is funded.

The public sector is a complex and diverse entity, and it is difficult to define it precisely. However, it can be described as the part of the economy that is owned and controlled by the state. It includes a wide range of activities, from the provision of health care and education to the provision of social housing and public transport. The public sector is a major employer in the UK, and it is also a major source of revenue for the state.
