the 1990s, the number of people in the UK with a mental health problem has increased by 50% (Mental Health Foundation, 2000).

There is a growing awareness of the need to address the needs of people with mental health problems in the workplace. The Department of Health (2000) has published a strategy for mental health care in the UK, which includes a commitment to 'improve the lives of people with mental health problems in the workplace'.

The purpose of this paper is to review the current state of knowledge about mental health problems in the workplace, and to discuss the implications for practice.

1. Introduction

The term 'mental health problems' is used in this paper to refer to a range of conditions, including depression, anxiety disorders, schizophrenia, and bipolar disorder.

There is a growing awareness of the need to address the needs of people with mental health problems in the workplace. The Department of Health (2000) has published a strategy for mental health care in the UK, which includes a commitment to 'improve the lives of people with mental health problems in the workplace'.

The purpose of this paper is to review the current state of knowledge about mental health problems in the workplace, and to discuss the implications for practice.

2. Prevalence

The prevalence of mental health problems in the workplace is estimated to be between 10% and 20% (Mental Health Foundation, 2000).

The prevalence of mental health problems in the workplace is estimated to be between 10% and 20% (Mental Health Foundation, 2000).

The prevalence of mental health problems in the workplace is estimated to be between 10% and 20% (Mental Health Foundation, 2000).

3. Impact

Mental health problems can have a significant impact on the workplace. People with mental health problems may experience difficulties with concentration, memory, and decision-making.

Mental health problems can have a significant impact on the workplace. People with mental health problems may experience difficulties with concentration, memory, and decision-making.

Mental health problems can have a significant impact on the workplace. People with mental health problems may experience difficulties with concentration, memory, and decision-making.

4. Management

There are a number of ways in which mental health problems can be managed in the workplace. These include providing support and training for people with mental health problems, and creating a supportive work environment.

There are a number of ways in which mental health problems can be managed in the workplace. These include providing support and training for people with mental health problems, and creating a supportive work environment.

There are a number of ways in which mental health problems can be managed in the workplace. These include providing support and training for people with mental health problems, and creating a supportive work environment.

5. Conclusion

Mental health problems are a significant issue in the workplace. It is important to address the needs of people with mental health problems in the workplace, and to create a supportive work environment.

Mental health problems are a significant issue in the workplace. It is important to address the needs of people with mental health problems in the workplace, and to create a supportive work environment.

Mental health problems are a significant issue in the workplace. It is important to address the needs of people with mental health problems in the workplace, and to create a supportive work environment.
