feature

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1998). The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which it is funded.

The public sector is a complex organisation, and it is difficult to understand how it works. This paper aims to provide a brief overview of the public sector in the UK, and to discuss the challenges that it faces. The paper is divided into three main sections: the first section discusses the structure of the public sector, the second section discusses the challenges that the public sector faces, and the third section discusses the ways in which the public sector can be improved.
