the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1999) (Department of Health 2000).

There is a growing emphasis on the need to improve the quality of care in the public sector. The Department of Health (2000) has set out a number of key objectives for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients. The Department of Health (2000) has also set out a number of key principles for the public sector, including the need to be patient-centred, to be transparent, to be accountable, and to be fair.

The Department of Health (2000) has also set out a number of key strategies for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key measures for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key targets for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key indicators for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key outcomes for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key results for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key achievements for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key successes for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key milestones for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key landmarks for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key events for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key dates for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key times for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key moments for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

The Department of Health (2000) has also set out a number of key occasions for the public sector, including the need to improve the quality of care, to reduce waiting times, to improve the efficiency of the system, and to improve the experience of patients.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The public sector has become a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which it is funded.

The public sector is a complex organisation, and it is difficult to understand how it works. The public sector is made up of many different organisations, each of which has its own aims and objectives. The public sector is also funded by the government, and this means that it is subject to government control and regulation.

The public sector is a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which it is funded. The public sector is made up of many different organisations, each of which has its own aims and objectives.

The public sector is also funded by the government, and this means that it is subject to government control and regulation. The public sector is a major employer in the UK, and this has implications for the way in which the public sector is managed and the way in which it is funded. The public sector is a complex organisation, and it is difficult to understand how it works.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the private sector has increased by 1.7 million (1990–1999).

There is a growing emphasis on the need to improve the quality of care and services provided by the public sector. This has led to a number of initiatives, including the introduction of the Health Care Act 1999, the introduction of the NHS Direct website, and the introduction of the NHS Choice and Control Fund.

The Health Care Act 1999 introduced a number of changes to the way in which the NHS is run. These changes include the introduction of the NHS Direct website, the introduction of the NHS Choice and Control Fund, and the introduction of the NHS Patient Choice Scheme.

The NHS Direct website is a free service that provides information and advice on a wide range of health problems. It is available 24 hours a day, 7 days a week.

The NHS Choice and Control Fund is a fund that allows patients to choose the hospital or service that they want to use. This fund is available to all patients who are registered with a General Practitioner.

The NHS Patient Choice Scheme is a scheme that allows patients to choose the hospital or service that they want to use. This scheme is available to all patients who are registered with a General Practitioner.

The NHS Patient Choice Scheme is a scheme that allows patients to choose the hospital or service that they want to use. This scheme is available to all patients who are registered with a General Practitioner.

The NHS Patient Choice Scheme is a scheme that allows patients to choose the hospital or service that they want to use. This scheme is available to all patients who are registered with a General Practitioner.

The NHS Patient Choice Scheme is a scheme that allows patients to choose the hospital or service that they want to use. This scheme is available to all patients who are registered with a General Practitioner.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the private sector has increased by 1.7 million (1990–1999).

There is a growing emphasis on the need to improve the quality of care and services provided by the public sector. This has led to a number of initiatives, including the introduction of the Health Care Act 1999, the introduction of the NHS Direct website, and the introduction of the NHS Choice and Control Fund.

The Health Care Act 1999 introduced a number of changes to the way in which the NHS is run. These changes include the introduction of the NHS Direct website, the introduction of the NHS Choice and Control Fund, and the introduction of the NHS Patient Choice Scheme.

The NHS Direct website is a free service that provides information and advice on a wide range of health problems. It is available 24 hours a day, 7 days a week.

The NHS Choice and Control Fund is a fund that allows patients to choose the hospital or service that they want to use. This fund is available to all patients who are registered with a General Practitioner.

The NHS Patient Choice Scheme is a scheme that allows patients to choose the hospital or service that they want to use. This scheme is available to all patients who are registered with a General Practitioner.
