the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the nature, uses and functions of information, and the ways in which it is created, communicated, evaluated and used; and the study of the ways in which information is organised, stored, retrieved and disseminated in the various forms and media, and the ways in which it is used in the various contexts. (p. 1)

The 'communication' field is defined as:

(p. 1)

These definitions are very broad and cover a wide range of topics. They are also very similar to each other, which is not surprising given that they are both part of the same journal.
