the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the nature, uses and functions of information, and the ways in which it is created, communicated, evaluated and used as a resource for individual and social development. (p. 1)

The 'communication' field is defined as:

...the study of the nature, uses and functions of communication, and the ways in which it is created, communicated, evaluated and used as a resource for individual and social development. (p. 1)

These definitions are very broad and cover a wide range of topics. They are also very similar to each other, which may be a reflection of the fact that the two fields are closely related.
